

## Battery Asset Management Summit UK & Ireland

### Optimisation & Maximisation: The Future of Battery Asset Management Across UK & Ireland

📍 London, UK 📅 14-15 October 2025, The Marble Arch Hotel, London

Battery Asset Management Summit UK & Ireland is the leading platform for battery storage leaders across the UK and Ireland. This premier industry event will convene decision-makers, thought leaders, and stakeholders at the forefront of battery storage operations and asset management.

#### Why This Summit Matters Now

The UK and Ireland are experiencing unprecedented growth in battery storage deployment, yet the sector faces significant challenges, including market volatility, regulatory uncertainty, and technical optimisation hurdles. As the energy transition accelerates, effective battery asset management has become critical to ensuring project profitability and grid stability.

With key policy initiatives aimed at enhancing grid flexibility and integration, the UK and Ireland stand at a pivotal moment to secure their positions as global leaders in energy storage. Battery Asset Management Summit offers the essential platform to address these challenges, ensuring the battery storage sector fulfils its crucial role in the region's clean energy future.

#### A Must-Attend Event for Battery Storage Leaders

The summit will unite developers, utilities, independent power producers (IPPs), investors, policymakers, and technology providers under one roof to explore key topics such as:

- **Maximising revenue streams** across multiple markets and services
- **Optimising battery performance** and extending asset lifespans
- **Navigating evolving regulatory frameworks** across the UK and Ireland
- **Implementing advanced software solutions** for enhanced asset management
- **Developing effective O&M strategies** for battery storage portfolios

#### Unmatched Networking and Business Opportunities

Attendees will have the opportunity to connect with developers actively building significant storage projects and senior-level industry executives. Through structured networking sessions, interactive panels, and exclusive workshops, participants will forge meaningful connections that catalyse real-world projects and partnerships.

## **How to Participate**

Registration is now open for the Battery Asset Management Summit UK & Ireland. Secure your spot today to join the region's top battery storage developers, investors, and innovators in shaping the future of energy storage. Visit the website for more information or schedule a call today to discuss how you can get involved as a speaker or sponsor.
