Create Game-Changing Connections at Energy Storage Summit 2026

This year's Summit introduces our most innovative and strategic networking programme, delivering unprecedented opportunities to connect with decision-makers, thought leaders, and potential partners across the energy storage ecosystem. Beyond traditional networking breaks, we've created focused engagement opportunities that drive meaningful business relationships and industry advancement.

International Energy Storage Café

Joining this session will allow you to interact in an intimate setting with senior decision-makers at key IPPs and developers already present in international markets such as USA, Australia, India, Chile and others. Engage directly with industry associations from across the globe, gaining valuable market insights and international partnership opportunities during our Day 0 workshop.

Invitation-Only Industry Workshops

Participate in exclusive problem-solving sessions alongside carefully selected industry peers – addressing key industry challenges such as grid challenges across markets, barriers to investment, fire safety, and optimisation.

Policy Working Groups

Contribute to the future of the industry and explore pressing challenges in these influential collaborative sessions, led by key associations.

Live Podcasts

Gain visibility and insights through engaging discussions delivered by industry experts and the Energy-Storage.news editorial team.

Dedicated Networking Zones

Maximize your time with purpose-built spaces designed for efficient engagement with specific stakeholder groups such as Investors, TSOs or Developers.

C-Suite BESS Exchange

Our new Leadership Forum will bring together C-Suite decision-makers to confront some of the most critical challenges facing the energy storage industry today. Expect strategic conversations, peer-to-peer learning, and forward-thinking solutions.

Happy Hour!

Join industry peers from 3pm on Day Two for a Happy Hour to celebrate successes and reflect on the Summit.
