Energy Storage

Asia 2025

7-8 October 2025

The Westin Manila, Philippines

Mobilizing Grid Capacity and Driving Energy Storage Opportunities across Asia

Post Show Report

The Energy Storage Summit Asia concluded successfully with **225 registered attendees** across two days, establishing itself as the leading platform for energy storage professionals in the ASEAN region. The summit facilitated crucial business connections through structured networking sessions, interactive panel discussions, technology showcase presentations, and strategic partnership announcements.

The Summit opened with a powerful keynote from **Atty. Francis Saturnino Juan**, Chair of the **Energy Regulatory Commission (ERC)**, who outlined groundbreaking regulatory frameworks designed to accelerate Battery Energy Storage Systems (BESS) deployment. This set the tone for discussions around policy innovation and market enablement.

Bernice P. Garcia-Rama, Assistant Vice President and Head Enterprise Commercial and Conglomerates at **Meralco**, delivered a compelling keynote on “Meralco’s Role in Powering the Next Wave of FDIs.” The presentation explored how Meralco’s BESS projects are new business models, and delivering measurable economic impact through industry growth.

The *From Congestion to Connection: Asia’s Path to a Smarter Grid* fireside chat addressed critical infrastructure challenges, with speakers from ADB, Peak Energy, and Cornex exploring how BESS can solve grid bottlenecks and reduce renewable energy curtailment rates of 10-15% seen across congested zones.

Day two began with a significant milestone - the formal signing ceremony between the Future Energy Storage and System Integration Alliance (FESSIA), The Philippine Solar and Storage Energy Alliance (PSSEA), and The Asian Photovoltaic Industry Association (APVIA), strengthening industry collaboration across the region.

The summit featured comprehensive insights across two critical dimensions of the energy storage industry. Technology Innovation sessions demonstrated cutting-edge solutions, with HyperStrong showcasing AI-driven O&M tools and “global-local” strategies for diverse markets, while Fluence Energy presented virtual transmission concepts and hybrid system applications. SAFT demonstrated BESS solutions for high renewable penetration grids, highlighting how advanced battery technologies can support grid stability as renewable energy sources become more prevalent across the region.

We extend our sincere gratitude to the **Philippine Solar and Storage Energy Alliance (PSSEA)**, our founding partner, whose invaluable support made this summit possible. PSSEA’s deep industry connections throughout the Philippines and their expertise as a key knowledge partner were instrumental in curating an event.

The event reinforced the critical role of energy storage in achieving regional decarbonization goals while highlighting the importance of collaborative approaches to overcome technical, financial, and regulatory barriers. As the industry continues its evolution, I look forward to seeing the connections and insights that were generated at this summit flourish and prove instrumental in shaping energy storage across Asia.

Kind regards,
La’Marisa

Learn about the latest energy storage technologies, strategies and market developments across Asia

- Gain insights from leading speakers and industry pioneers shaping the region's energy transition
- Explore opportunities for partnerships, joint ventures and project development
- Network with utilities, developers, investors and technology providers across the energy storage value chain
- Discover innovative solutions and best practices for integrating storage into grids and renewable projects
- Understand evolving policy, regulation and investment trends driving the energy storage market
- Position their business at the heart of a key regional gathering for the energy storage sector

What Our Attendees Thought

Q

Will you Attend Energy Storage Summit Asia in 2026?

95% said Yes ↑ 

Quality of Speakers

Conference Highlights

“

Great opportunity to meet many of the leading BESS developers in the region.”

Mott MacDonald

“

Great opportunity to learn more about energy storage and to network with developers in particular.”

Clifford Chance

Our Speakers Included

The 2025 Summit welcomed speakers from around the world to share their experience and expertise with program attendees.
Speakers Included:

Atty. Francis Saturnino Juan

Chair
Energy Regulatory Commission (ERC) Philippines

Bernice P. Garcia-Rama

Assistant Vice President and Head Enterprise Commercial and Conglomerates
Meralco

Miguel de Jesus

Chief Operating Officer
ACEN Renewables

Mutya Yustika

Energy Finance Specialist
Institute for Energy Economics and Financial Analysis (IEEFA)

Sanura Illeperuma

Senior Vice President - Energy, Renewables & Infrastructure Coverage
DBS Bank Ltd.

Jeffrey Tan

Senior Operations Officer
IFC

Bernice Vanguardia

Trade and Investment Commissioner, Manila
Austrade

Aljon Del Rosario

Director, Infrastructure & Renewable Energy
Index Partners

Dr Mahdi Behrangrad

Head of ESS/VPP Business Department
Pacifico Energy K.K.

Liming Qiao

Chief Executive Officer & Founder
Future Energy Storage and System Integration Alliance (FESSIA)

Karan Khinchi

Director, Energy Transition
Standard Chartered Bank

OUR ENERGY STORAGE SUMMIT SERIES

Each Summit provides targeted access to high-level audiences, thought leadership opportunities, and the chance to build meaningful partnerships in growing storage markets.

Energy Storage Summit
India

31 October - 1 November 2026
Greater Noida, India

Energy Storage Awards

20 November 2025
London, UK

Energy Storage Summit
2026

24 - 25 February 2026
London, UK

Energy Storage Summit
Australia

17 - 18 March 2026
Sydney, Australia

Energy Storage Summit
USA

24 - 25 March 2026
Dallas, Texas, USA

Energy Storage Summit
Middle East

7 - 9 April 2026
Dubai World Trade Centre, Dubai

Energy Storage Summit
Stuttgart

9 - 11 June 2026
Messe Stuttgart Stuttgart, Germany

Energy Storage Summit
Berlin

September 2026
Berlin, Germany
