Solar: The Power Behind Europe's Energy Transition

Welcome to Large Scale Solar Europe 2026

As the leading gathering for Europe's solar industry, this prestigious event brings together top-tier Independent Power Producers (IPPs) and developers at a pivotal point for the European PV industry.

With record deployment levels in 2024 seeing 65.5GW of new PV capacity brought online, it is essential that this momentum is maintained. As the immediate threat of energy shortages lessens, prices fall, and election-year uncertainty lingers, join us to discover how the industry is continuing to drive progress and expand project pipelines.

This year, we explore the dynamic solar market and its crucial role in achieving Europe's renewable energy goals.

Key topics include:

- Policy accelerating solar deployment across Europe
- Navigating grid connection complexities
- Corporate solar procurement driving demand and growth
- Hybrid revenue models and co-location strategies
- Optimising land use and community engagement for project success

With a proven track record of fostering valuable connections, we're confident that attending the summit will provide significant benefits for your business.

Don't miss this chance to network, learn, and shape the future of solar energy. We look forward to welcoming you to Rome.

Alice Fitzsimons

Senior Conference Producer, Solar Media

Alice.Fitzsimons.GB@informa.com

Our commitment

As your commercial allies, we are dedicated to maximizing your return on investment and optimizing the use of your time and resources. Whether your goal is to generate new leads for your sales team, elevate your brand's visibility, or launch innovative products, our team is ideally positioned to assist you. We appreciate your time in considering our offerings and eagerly anticipate embarking on this exhilarating journey together.

Our approach

Large Scale Solar EU is not just another solar event; it stands apart with its unwavering commitment to delivering unique insights, fostering meaningful dialogues, and forging strategic partnerships. Your customers join this summit to gain a deeper understanding of the disruptive technologies shaping the market, to establish robust relationships with new and existing clients, and to seek guidance on making informed investment decisions. As the utility-scale solar landscape rapidly evolves and the project pipeline expands, only the most innovative entities will thrive. Now is the moment to invest in marketing and business development strategies that prominently

position your unique value proposition and brand in the minds of decision-makers.

Our mission

To ignite transformation and foster the knowledge and connections that will expedite the transition to a low-carbon power market.
