

Agenda Day One: Thursday 11 June 2020

- 0800-0900 Registration & morning refreshments*
- 0900-0915 Conference welcome
- 0915-1100 Advanced technology changing the PV manufacturing landscape: Heterojunction leaders in mass production in 2020
- 1100-1130 Morning refreshments & networking*
- 1130-1300 R&D activities in Heterojunction: driving cell efficiencies above 25% in production (Part 1 of 2: Europe)
- 1300-1400 Lunch break & networking*
- 1400-1500 Financing & deployment of bankable Heterojunction modules in utility-scale applications
- 1500-1530 Afternoon refreshments & networking*
- 1530-1730 Extra features to be added here soon
- 1900 Evening reception, hosted by Hevel (by invite)

Agenda Day Two: Friday 12 June 2020

- 0830-0900 Refreshments*
- 0900-1030 New production equipment & materials for Heterojunction efficiency/cost enhancements
- 1030-1115 Performance of Heterojunction modules for rooftop, BIPV & vehicle-integrated applications
- 1115-1145 Morning refreshments & networking*
- 1145-1230 Reliability testing, field-data, & quality benchmarking of Heterojunction modules & supply-chains
- 1230-1315 R&D activities in Heterojunction: driving cell efficiencies above 25% in production (Part 2 of 2: Asia Pacific)
- 1315-1415 Lunch break & networking forum*
- 1415-1500 Panel discussion: creating global awareness in Heterojunction technology through experience sharing & field deployment success
- 1500-1530 Afternoon refreshments & networking*
- 1530 City tour of St. Petersburg (by invite)
